## Safety & Security Pakistan

International Fire, Rescue, Safety & Security Exhibition Pakistan 2016 is going to be the leading event in safety and security sector. The region is in high demand of new technologies, innovations and security measures for the protection of individuals, industrial infrastructure, commercial entities and transport network. The event will be organized in Lahore, a provincially as well as federally administered province.

Safety & Security Pakistan exhibition will be visited by security experts, decision makers, government authorities, manufacturers along with safety and security professionals, NGO's & Rescue organizations etc.

### Why Exhibit?

- Meet face to face with local & international safety & security professionals
- Get up to date with industry developments
- Benefit from live demonstration of your products to an active and dedicated buying audience
- Access the emerging Pakistan market and promote your presence within the industry as a key player
- Reach a large proportion of the market in a short space of time.
- Raise your company profile, change market perceptions or generate sales leads,
- Achieve more in these three days of the exhibition than you might otherwise achieve in months.

### Reasons to Visit?

Safety and Security Pakistan gives you the opportunity to access the latest safety and security products and services under one roof, meet industry players at one place and find potential suppliers of the industry

### What is here for you?

- 3 days of intense business interaction
- Extensive media exposure before, during and after the show
- Opportunity to propel sales and analyze market trends
- Enhance the image of your trademark, quality, and market services
- Attend Safety and Security Conference

*Safety is a mission  
let's play our role...*

### Conference

A conference will be held along with the exhibition covering sessions on Safety, Security & Rescue. It will be a valuable opportunity to meet and learn from leading industry professionals.
